INTRODUCTION

We give readers the fourth volume of „Political Preferences”, an interdisciplinary journal devoted to the study of voting behavior issues, especially political determinants of identification. Magazine publishers are the Institute of Political Science and Journalism at the University of Silesia and the Center for Innovation, Technology Transfer and Development Foundation of the University of Silesia. Patronage of the project holds Polish Political Science Association and the Society for Academic Initiatives. The research community centered around „Political Preferences” was initiated by the Section at the Polish Electoral Studies Political Science Association and is actively involved in international research projects devoted to electoral behavior.

Journal in his intention promote empirical research in the plane of electoral behavior. Multidimensional and interdisciplinary research in political circumstances of individuals and their motivation to participate actively in political life is important for the development of civil society, one of the important dimensions of the electoral participation. Magazine publishers are particularly keen on cooperation with researchers of different disciplines who take an empirical analysis of the problem of political preferences: political science, psychology, sociology, linguistics, philosophy, and others. The degree of involvement of citizens and ultimately the decisions made in the electoral process is subject to many levels, giving you the opportunity to take the identification and analysis of the correlation existing between them.

This issue of „Political Preferences,” in contrast to the previous, is a report of empirical research, but devoted to the diversity of issues, the common denominator is the study of reality social, political and economic, affecting voting behavior. This is another step in the development of writing, involving not only the extension of the existing formula, but also its internationalization. The international dimension „Political Preferences” has been achieved not only by initiating the release number in the English language, but also by expanding the group of authors and reviewers who write about the people
